THE OPPLE VISION

We believe in better light for a better future.

About OPPLE

OPPLE Lighting Co., Ltd, a leading lighting company in China, is rapidly expanding in more than 70 countries worldwide with 6,000 employees. It boasts the largest distribution network in China and over 150,000 sales terminals worldwide including over 3,000 branded shops. OPPLE has a strong focus on innovation with over 4,000 patents, backed by its 2 large ISO-certified manufacturing facilities and an R&D team of over 400 engineers.

Furthermore, the Company has set up a professional laboratory up to international standards--the Wujiang laboratory Owing 10 professional branch testing labs, it has been awarded the 15017025 national certification by CNAS/ILAC (International Laboratory Accreditation Cooperation), and also has been titled the TUV international accreditation laboratory, whose data provided is widely recognized.

Now we hold not only the facility certificates such as SA 8000: Social Accountability, 1509001: Quality management and ISO 14000: Environment management, etc., but also various international product quality certificates: CB, CE, GS and special ones for different countries: RCM(SAA), BIS, SASO, TISI, SIRIM, SNI, N EA etc. With the local presence of experienced and skilled OPPLE staff, you can now take full advantage of our innovative products.

In September 2009, OPPLE became the official exhibitor of Shanghai Expo Private Corporate United Pavilion, OPPLE provided excellent lighting solutions for the Pavilion, and for many custom-ers worldwide as well.

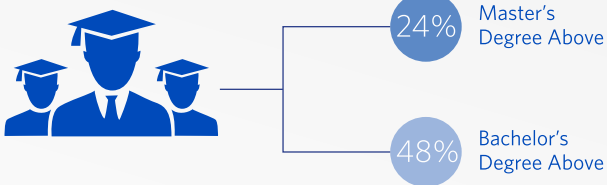

R&D Center

OPPLE Lighting holds a professional R&D team with more than 300 members, over 80 of whom hold a master's degree or above, a post-doctoral research station, and 10 Professional R&D Labs in Shanghai, Zhongshan, Suzhou and Europe. Most of the lab staff have MNC working experience and extensive research backgrounds, and more than 26% hold master's or PhD degrees. The two R&D centers have been establishing strategic partner-ships with many world-leading organizations such as Huawei, oneTLED and Zigbee.

Industry 4.0

In 2016, the first robot arm was used for automatic inspection of molds, marking the official introduction of Industry 4.0.

Automated production line

In 2015, the first automated production line was built to greatly increase production efficiency and capacity.

Product Testing & Certification

The company has the most advanced product testing system in the industry, and maintain long-term in-depth cooperation and technical communication with multiple authoritative testing and certification third-parties. At the same time, the company has a national-level lighting laboratory (CNAS certified) in line with ISO/IEC17025. In the production of finished luminaires, a comprehensive quality inspection and monitoring process is set up for quality control.

Main production facilities

Zhongshan

Area: : 52,000 m²
 Staff: nearly 2,500
 Production line: LED luminaires (light sources/battens/ceiling lamps/...); electrical appliances

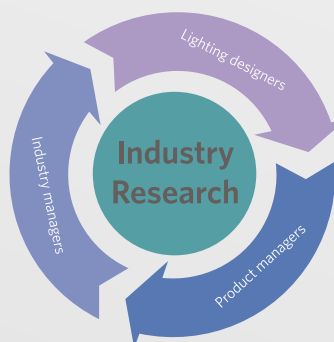

Wujiang

Area: 600,000+ m²
 Staff: Nearly 2,000
 Production line: LED luminaires (downlights/spotlights/panels...)

Professional Research Team

OPPLE has a team of more than 80 lighting designers with extensive experience, as well as a leading management team in charge of industry and product.

WELLNESS MANTRA

LIGHT FOR
WELLNESS

The wheel of positive energy keeps turning with a healthy lifestyle. Easy to say, but sometimes not so easy to do! Our busy lifestyles can be hard on our health. That's why it's so important to stop, take stock and make a conscious decision to follow a healthy lifestyle. Come, tap the pulse of positive energy and navigate towards a joyful and successful life with us.

FLICKER-FREE LIGHTS
HAPPY EYES

At opple, we don't just build better lighting, we invent better light crafted with world-class technology, exclusively for your "wellness". Choose opple led lights to brighten up your world.

**NO FLICKER!
NO FIKAR!**

Most led lights available in the market today produce a flicker which can strain your eyes, cause migraine and induce headache. Presenting Opple flicker-free leds, which care for your health by minimizing or eliminating these symptoms and providing a healthier colour spectrum For your eyes.

504000002811	-	-	LED-Strip-2835-220V-6W/M-45-60-Accessory package	250

Application

LED FPCB Strip

Features

- Visual flicker free
- High lumen output
- Wire free FPCB design
- Snap fit connection
- High quality PVC material
- Patented optical design

Benefits

- Protects sensitive eyesight
- High visibility illumination
- Stable and good heat dissipation
- Easy installation
- Environment friendly and odourless
- High transparency, more than 90%

LED Ecomax Neon Strip

Features

- Easy installation and longer lifetime
- Good flexibility using high quality PVC
- High luminous efficiency and light transmittance

Benefits

- Hassle free installation process
- Can be fixed along on any shaped surface
- Clear lighting effects

Application

LED Spotlight HJ G2

Features

- Multiple dimming modes
- New designed compound-eye lens
- Aluminum die-casting heat sink
- Multiple choices of beam angle powers
- Horizontal rotate 355°, vertical rotate 35°

Benefits

- Tune light intensity to suit you environment and connect smart system , smart your life
- Accurate light-shape control and uniform light distribution
- Superb heat control enables better efficiency
- Accommodate different display areas and applications
- Flexible adjustment for accent lighting
