

See your  
world  
in a better  
light

Imagine a whole new world of

*lighting.*

Now see it here!

For over four decades, Goldmedal has been at the forefront of the electrical industry, introducing the very best that technology has to offer in the world of wiring devices. Our products not only understand your present needs, but some, even your future ones. Developed using processes that have been refined over the years, our products made you smile with joy and satisfaction.

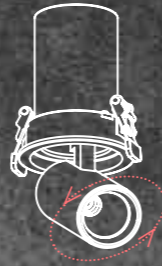

The story of creating innovative, high-quality products continues in the field of LED manufacturing. We guarantee, that like every product that we manufacture, the LEDs we make are innovative, aesthetically pleasing, and energy efficient along with being easy to maintain and replace. As always, we continue to focus on delivering customer delight through value for money products and reliable service, each and every time.

We welcome you to witness the exciting developments in the world of LEDs by Goldmedal. It's your imagination come true.

Lighting technology has evolved by leaps and bounds ever since Edison invented the light bulb in 1879. With the current generation of LEDs and the innovations we are making on a regular basis, we can safely say that we have reached the pinnacle of lighting technology. Today, LEDs present a light source that is extremely energy efficient, durable, safe, aesthetically pleasing, and environment friendly. With LED technology evolving at light speeds, there's always something more exciting around the corner. At Goldmedal, we aim to be a pioneering presence in this field - introducing you to the latest and the very best that the world has to offer.

geolite  
LED PANEL LIGHT

Geolite is a slim, recessed panel LED that can be used as a concealed light or a surface light. It is available in round as well as square shapes. Manufactured with pressure die cast aluminium housing and anti-glare diffuser along with integrated energy efficient driver, these LEDs can be used to create the perfect ambience in any indoor space. A separate frame is available to convert the LED for surface application.

**PIXEL**  
ULTRA SLIM LED  
PANEL LIGHT

Pixel is an aesthetically designed, ultra slim LED panel light. Available in multiple sizes, it is made of pressure die cast aluminium housing and has an anti-glare diffuser and a separate energy efficient LED driver. Mountable on integrated as well as standard ceiling systems, these panel lights feature an advanced aluminium structure that allows for an extremely slim form factor.

Specifications	
Item	: Skyglow Square 2x2 Panel
Model No	: LED BASE LIGHT 36W
Rated Wattage	: 36W
Operating Voltage	: AC 140~270V, 50Hz
PF	: >0.9
CRI	: ≥80
Lumens	: 100lm/w
Operating Temperature	: -10°C to +45°C
Beam Angle	: 160°
Ingress Protection	: IP20

A compact, ultra light, high quality backlit LED panel with CRCA housing, anti-glare diffuser and a separate energy efficient driver, the Sky-Glow produces a large pool of high lumen light that is smooth and even in quality. Easy to install and constructed to last, the Sky-Glow is a solid fixture that can withstand the wear and tear associated with busy commercial areas. Although slim and compact, the G-Sky is robustly built. Available in 36 Watt variants, these panels create an ambience that is soft and delightful to experience.

*Brighten*  
your surroundings.  
Illuminate your life.

Goldmedal LED lights offer a wide range of illumination options that liven up your surroundings in myriad ways. In addition, they are easy to use, highly durable, and available in a variety of aesthetically appealing designs.

**TODOS**  
LED PANEL LIGHT

This beautiful LED not only functions as a downlight but also emits light from its outer sides. You have a choice of three light combinations to choose from: you can opt to use the Todos as a simple LED downlight, or you could just use the blue or pink light on its side as a mood light, or you could use both the white downlight and the light on the side to create beautiful illumination all round. To make a choice, simply switch the light ON or OFF till you find the option that you need at that moment. Beautifully finished, its elegance and light weight adds to the overall convenience.

**Ola**  
DETACHABLE  
LED DOWNLIGHT

The Ola downlight with polycarbonate housing, anti-glare diffuser and integrated driver is the future of LEDs. This sleek light can be easily fitted or detached from its frame with a gentle push or twist! For the round LED, simply twist the light cartridge to fix or remove it from the housing and for the square LED, gently push it to achieve the same results. The OLA LED is extremely user-friendly, hassle-free and is the perfect choice for interiors with false ceilings.

APOLLO  
LED DOWNLIGHT

APOLLO+  
LED DOWNLIGHT

The Apollo and Apollo+ LED downlights, with their pressure die cast housings, anti-glare diffusers and separate energy-efficient drivers offer delightful colour consistency and glare-free lighting in any setting. Delivering a higher quality of light, these downlights are ideal solutions for both residential and commercial use. Easy to install and available in both round and square shapes, the Apollo and Apollo+ not only maximize your energy savings but also the elegance of your interiors.

# GLAZZ

LED DOWNLIGHT

**Features:**

- Polycarbonate white matte finished body
- Recessed type lightweight downlight
- Inbuilt driver
- Wide operating voltage
- Anti-glare diffuser
- With surface attachments

Glazz delivers on Goldmedal's promise of innovative, minimalistic, easy-to-use and high quality luminaires. Designed to replace average downlight LEDs, this recessed luminaire is long lasting and provides pleasant natural lighting that even sensitive eyes will find enjoyable. With a simple yet elegant design, Glazz is one of the best choices for pleasant indoor lighting that doesn't compromise on quality and efficiency.

DROPLET

TOTO

DUOS

The Duos is a uniquely-shaped LED that not only functions as a downlight but also emits light from its sides. You can choose to use it as a simple downlight or only the light along its side as a mood light – or you can use both lights to create beautiful illumination all round. The Droplet is a recess-type LED downlight made of polycarbonate housing and comprises an anti-glare diffuser that creates a soothing light. It also has an in-built driver and can be used in junction boxes at homes. In comparison, the TOTO is a low-depth, slim downlight that is available in warm white, cool daylight, as well as red, blue, green, and pink shades. It's the easiest way to create the right mood for your interiors.

A new way to *light* up life

Using the latest and best in LED technology, Goldmedal's new line of COB downlights beautifully brighten up your world. Designed to offer bright, uniform and glare-free illumination, Goldmedal COBs are truly a class apart.

## G-TWIST

SMART LED LIGHTING

The G-Twist is an example of a simple idea made extraordinary. A completely modular unit, the G-Twist enables you to detach the LED light unit from the base with a simple twist. Along with easier replacement of the LED light, the G-Twist also helps you avoid damage to ceilings during maintenance. You can choose multiple types of LED light options that match your interior needs - from colour to wattage to the style of the light unit. All this, with minimum fuss. It's a simple idea... yet so amazing!

The G-Twist is an example of a simple idea made extraordinary. A completely modular unit, the G-Twist enables you to detach the LED light unit from the base with a simple twist. Along with easier replacement of the LED light, the G-Twist also helps you avoid damage to ceilings during maintenance. You can choose multiple types of LED light options that match your interior needs - from colour to wattage to the style of the light unit. All this, with minimum fuss. It's a simple idea... yet so amazing!

If you need to focus light on a particular task or a specific area in the room, the Zoom and Zoom+ LEDs do the job better than any other light. Mounted on a swivel mechanism, these LEDs enjoy perfect maneuverability that allows you to project the light at the perfect angle. Available in aesthetically designed pressure die cast housings along with anti-glare diffusers and separate energy-efficient drivers, the ruggedly built yet stylish Zoom and Zoom+ LEDs can be easily mounted on ceilings in domestic and commercial settings.

The Krysta is an innovative COB downlight with trimless design that merges effortlessly with the ceiling. It offers a narrow beam angle to create that perfect illumination. The die cast aluminium exterior and polycarbonate diffuser provides glare-free light with necessary heat dissipation. The Frisbi is another COB downlight that is a delight to use. The luminance of Frisbi is ideal for casting focused light on any desired spot. Both the Krysta and Frisbi add to the elegance of any setting.

Designed with the latest LED technology, Ozean and Xtensia are innovative COB downlights that deliver focused light on any desired point. Their minimalistic design allows these LED lights to blend effortlessly with any decor. With narrow focus beams, these LEDs beautifully illuminate objects without creating any hot spots. Equipped with clip-on mounting options for easy installation, both the Xtensia and Ozean are the perfect choice for illuminating specific indoor items.

**JEWEL**  
COB DOWNLIGHT

Dimensions

**COMET**  
COB DOWNLIGHT

Dimensions

The Comet is a one-of-its-kind COB downlight with a deep anti-glare diffuser. The inner surface is available in three different colour options, which can reflect different moods. Its die cast aluminium heat sink not only guarantees protection from corrosion, which also improves efficiency of heat dissipation. While the device is ideal for projecting light on specific items like art and display, it can also be used as a decorative light. The Jewel is a COB spot light with a polycarbonate housing. Its specially designed anti-glare reflector and clear diffuser are ideal for accent lighting. Its golden finished reflector coating adds to the overall ambience it creates.

**NEXON**  
COB DOWNLIGHT

Nexon and G-Max are compact, lightweight, minimalistic spotlights. These COB LEDs have a robust design that features an aluminium pressure die cast housing, special anti-glare diffuser as well as a separate constant current LED driver which ensures super bright illumination and energy efficient performance for a long time. The swivel mechanism in both these COB lights allows for a wide angle tilt that enables you to focus the light beam in the desired direction. Both Nexon and G-Max can be used as accent lighting to highlight specific areas.

**G-BRIX**  
COB LINEAR LIGHT

A robust design with aluminium die cast housing, the G-Brix is a linear COB LED that can be used to provide high quality illumination. Consisting of single as well as multiple LED units, the G-Brix can be used to control the amount of illumination you need at a particular time. Depending on your lighting needs, you can switch on all or just a few of the units at a time. The G-Brix is fitted with a scientifically designed heat sink for good heat dissipation. The device comes with easy-to-install clips for smoother installation. An all black exterior gives the G-Brix a distinct edge over other spot lights.

# Xylo

SURFACE LIGHT

A gentle twist and the Xylo easily latches on to the ceiling, ready to illuminate its surroundings with a light that is pleasant and cool. A surface panel, the Xylo is a modular LED light that can be fixed directly on a wall or ceiling with minimum effort. With no fasteners, drivers or other visible fixtures, these LEDs are extremely elegant in appearance. Embrace the beauty and convenience of the new generation modular LED lights with Xylo.

- Features:**
- Modular surface light
  - Easy to replace
  - PC housing
  - Can be fixed directly on wall/ceiling
  - Inbuilt driver

**GROOVE**  
LED SURFACE LIGHT

Groove is a slim, rimless and compact surface mounting LED that is the most modular LED model yet. This detachable LED can be easily installed onto the polycarbonate housing with a push-to-fit technique. With a separate energy-efficient LED driver and anti-glare diffuser, the Groove provides bright but glare-free illumination. An easy-to-replace modular LED, Groove radiates a sense of luxury, making it ideal for modern homes, hotels, shops, and offices. Smart yet simple, Groove modular surface light is impossible to ignore.

**Features:**

- Modular surface light
- Easy to install detachable LED
- Polycarbonate housing
- High lumen output
- Can be fixed directly on wall/ceiling
- Inbuilt driver

BIBO LED TRACK LIGHT

**BIBO**  
TRACK LIGHT

Modern spaces demand lighting fixtures that can effortlessly accentuate décor elements in a room. Goldmedal's Bibo track light is a versatile LED that moves linearly on the mounting structure and allows you to direct the light as per your need. With a narrow beam angle of 24 degrees, Bibo gives you focused bright light to highlight a specific item or area. The minimalistic design of Bibo is suitable for any contemporary space, including studios, stores, galleries, and showrooms.

**Lenstar**  
LED FLOODLIGHT

Lenstar sets the standard in high quality floodlights. With an IP 66 rating, Lenstar is not only dust and water resistant but can also withstand extreme weather conditions. Manufactured using die cast metal, Lenstar features star crystal diodes that offer super bright illumination. The high quality finish coupled with high quality light makes it an ideal choice for outdoor use. Equipped with a functional swivel stand, the Lenstar Flood Light is an easy-to-use, durable and pocket-friendly device that requires low maintenance.

**ORION**  
STREET LIGHT

Slim, elegant, yet tough, the Orion is a street lamp made of die-cast aluminium with grey matte finish. Available in five versions, it is furnished with a polycarbonate diffuser and a minimum of 24 LED lights. To ensure optimal performance, it has an operating voltage range of 100-300 V AC. With an IP 66 rating that prevents penetration of dust, water and other particles, this sturdy street lamp delivers high performance even in extreme conditions, making it an excellent choice for outdoor street lighting.

Let the *light* lead the way.

No matter what time of the day or night it is, you can liven up your surroundings with superior LED lights. While LED battens are standard fixtures in most homes, opt for Goldmedal products for their higher power saving, uniform light distribution, modern yet lightweight design, and sturdy, durable frames.

LEDs  
Lighting

Energy  
saver

BIS APPROVED

These sleek LED Battens are the ideal replacements for existing fluorescent T5 fittings. Using a fraction of the power consumed by fluorescent tube lights, these LED lights can last up to three times longer. Their slim form and impact-resistant housing leads to enhanced aesthetics and durability. Switch to LED Battens to reduce energy consumption and thereby minimize the impact of fossil fuels on the planet!

INVERTO  
LED LAMP

INVERTO PLUS  
LED LAMP  
Replaceable Battery

The Inverso LED is a one-of-a-kind rechargeable LED lamp that offers uninterrupted illumination even in case of an electricity outage. Powered by a 2200 mAh battery that offers up to 4 hours of battery backup, the Inverso charges automatically when the lamp is in use. It is the perfect alternative to average LED bulbs and can easily fit into regular B22 lamp holders. With a classic design, the Inverso is a must-have LED lamp for every modern home and office.

Environment-friendly *lights.*  
Make it a part of your *lifestyle.*

The future is brighter when we switch to LED lights. They not only offer high power savings of more than 50%, they also use environment-friendly materials and ensure lower heat dissipation. LEDs are thus the de facto choice for lighting solutions. Switch to Goldmedal LEDs and make them a part of your daily living.
