WHY CHOOSE US

Light Berry Innovative Ideas Private Limited has always been at the forefront in offering world class lighting solutions for homes, offices, industries, education & research institutes, healthcare facilities and retail spaces. The company is driven by high class operating standards and is known to never compromise on its quality and adopt the best practice in the industry. Our advanced technology, energy efficient and durable lighting solutions puts our LED lighting years ahead, giving it an edge in today's light market. What truly sets us apart from others in the industry is our-

◆ ECO FRIENDLY PRODUCTS

Our LED lights are eco friendly products containing no toxic chemicals like mercury that are hazardous to the environment. These products are recyclable and minimize the trace of carbon dioxide emitted into the environment. Our eco friendly products highly contribute towards a pollutant free environment.

◆ ENERGY EFFICIENT

Our LED lights are eco friendly products containing no toxic chemicals like mercury that are hazardous to the environment. These products are recyclable and minimize the trace of carbon dioxide emitted into the environment. Our eco friendly products highly contribute towards a pollutant free environment.

◆ NO UV OR IR RADIATION

Unlike the traditional lightings available in the market, our LED lights do not produce infrared lights or UV emissions. This makes it a suitable option, especially for heat sensitive areas in industries and work sites.

◆ LONG LIFE SPAN

One of the leading benefits of our range of LED lightings is its long life span. LED lights have an outstanding operational life span which is nearly 2 times more than that of the traditional ones. Unlike the standard lightings, our LED lights do not burn out to stop working and often emit low output levels leading to greater life span of the product.

◆ DURABLE & AFFORDABLE

LED lights are highly durable in nature and built with sturdy components that withstand even the roughest of conditions. LED lights are resistant to shock vibration and external impacts; making it an ideal outdoor lighting solution. Besides, our lighting solutions are also cost efficient.

◆ DESIGN FACTOR

Our LED lighting solutions are smart innovation crafted to meet global standards. Our products are a classic blend of beauty, elegance and durability. Each of our products offer a modern unique look, designed to match your beautiful interiors.

WHAT ARE LED LIGHTS?

LED which stands for Light Emitting Diode is the latest energy efficient lighting solution available in the market. The LED technology emits light in a specific direction and for this reason they are known to be energy efficient. They consume 85% less energy than halogen or incandescent lightings, leading to significant savings of power. This technology provides improved lighting experience than most others offer. LED lighting differs from incandescent and CFL lightings in terms of its design, efficiency, durability, versatility and longer life span.

WHY ARE LED LIGHTS MORE PREFERABLE?

In the recent years LED lights have been the preferred choice for many people mainly because -

◆ **LOW ENERGY CONSUMPTION**

LED lights are known for its low energy consumptions ability which helps saves energy and money

◆ **NO HEAT RADIATION**

Unlike the incandescent and CFL lightings, LED lighting systems do not radiate heat. In fact the lights prevent burning out or over heating

◆ IDEAL FOR MOST APPLICATIONS

LED's are ideal for most applications that are subject to the frequent on-off cycle. Unlike fluorescent lamps that burn out more quickly when cycled frequently or HID lamps that takes time before restarting, LED lights are much more quick and efficient.

◆ ENVIRONMENT FRIENDLY

LED lights are known to be environmentally friendly as it does not contain mercury and known for its reduced CO2 emission.

APPLICATIONS OF LED LIGHTS

LED lights are the most widely used technology in the lighting industry. These lights are generally used for commercial & residential lighting purposes. Our range of LED lighting solution are used for-

◆ RESIDENTIAL LIGHTING

KITCHEN

LIVING ROOM

BATHROOM & LAUNDRY ROOM

CLOSET & CABINET

GARAGES

◆ **COMMERCIAL LIGHTING**

CORPORATE OFFICE

RETAIL & GROCERY STORE

HEALTH CARE & EDUCATIONAL FAMILY

REMOTE LED LIGHT

Features

- High Efficiency, Flicker Free
- Communication Protocol : RF 2.4G
- Control Method : Remote Controller
- Dimming Range : 5% - 100%
- One Output : Dimmable Driver
- Two Output : Dimmable & Color temp
- Adjustable Driver
- Controllable Groups : Up to 99 Groups
(99 lights in each Group)
